## Safety Data Sheet

**Material Name: NANOCHEM® OMX (ORGANOMETAL RESIN)**

**SDS ID: MATNE514**

It is unlikely that emergency treatment will be required. However, in case of contact with media remove to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen. Maintain airway, blood pressure, and respiration. Keep warm and at rest. Get medical attention immediately.

### **Skin**

It is unlikely that emergency treatment will be required. However, in case of contact with media promptly wash with soap and running water. Remove contaminated clothing. Wash clothing before reuse. Cover affected area securely with sterile, loose-fitting dressing. Treat symptomatically and supportively. Get medical attention immediately.

### **Eyes**

It is unlikely that emergency treatment will be required. However, in case of contact with media, immediately flush with plenty of low pressure water for at least 20 minutes. Remove any contact lenses to ensure thorough flushing. Get immediate medical attention.

### **Ingestion**

The system is sold as a sealed unit and exposure to the compound via ingestion of media is not expected. If ingestion does occur, call a physician. Avoid gastric lavage or emesis. Give large amounts of water or milk. Repeat if vomiting occurs. Never make an unconscious person vomit or drink fluids. If vomiting occurs, keep head lower than hips to help prevent aspiration. Maintain airway and respiration. Treat symptomatically and supportively. Get medical attention immediately.

### **Most Important Symptoms/Effects**

#### **Acute**

no information on significant adverse effects.

#### **Delayed**

no information on significant adverse effects.

### **Indication of any immediate medical attention and special treatment needed**

Treat symptomatically and supportively.

## **Section 5 - FIRE FIGHTING MEASURES**

### **Extinguishing Media**

#### **Suitable Extinguishing Media**

regular dry chemical, dry sand, Lime, soda ash, Use extinguishers rated for Class D fires, such as Ansul Met-L-Kyl (TM).

#### **Unsuitable Extinguishing Media**

Do not use water or foam.

### **Special Hazards Arising from the Chemical**

Negligible fire hazard as long as the container is not punctured or a wrong gas such as pure oxygen is not accidentally piped to the canister.

### **Fire Fighting Measures**

Do not use water or foam. Move container from fire area if it can be done without risk. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Do not get water inside container. Cool containers with water spray until well after the fire is out. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. Avoid inhalation of material or combustion by-products. Contents will react with moisture and carbon dioxide or oxygen in air to release flammable hydrogen gas and a temperature rise sufficient to char and possibly ignite oxygen and combustible materials.

### **Special Protective Equipment and Precautions for Firefighters**

Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

## **Section 6 - ACCIDENTAL RELEASE MEASURES**

### **Personal Precautions, Protective Equipment and Emergency Procedures**
